Caring ♦ Quality ♦ Comfort

Caring ♦ Quality ♦ Comfort

We are proud to be offer our community with

Nursing Foot Care Services At Home & In A Facility

Foot Care in Motion has been continually taking one step at a time as our company strives to always be the leader in Ontario for foot care by offering expert care, unsurpassed client services, making your residents feel comfortable is our priority.

We treat every client like family and provide the highest quality care to ensure a perfect treatment and total foot comfort.

- ☞ We practice with the highest standard of Sterilization and processing to meet Public Health Ontario following PDIAC best practice guidelines.
- ☞ We carry the proper Insurance coverage to work in the community and facilities.
- ☞ We employ and educate our Foot Care Nurses to ensure quality care is achieved with every client.
- ☞ All our staff have been screened and provide background checks and vulnerable sector checks.
- ☞ All our nurses are in good standing with the college of Nurses.

www.footcareinmotion.com for more information.

We employ a team of Foot Care Nurses to meet your needs.

Our qualified Nurses manage complicated, high-risk patients with a variety of co-morbidities. These may include; diabetes, peripheral vascular diseases, peripheral neuropathy, wounds, arthritis, dementia, and foot and lower limb mechanics related to the aging process.

Foot Care In Motion has been in operation for 6 years servicing Ontario. We pride ourselves on delivering topnotch care with a small company feel and personal attention.

We continue to grow our team of highly qualified Foot Care Nurses who offer professional and friendly visits.

Nursing foot care treatments include:

- Routine assessment of the feet and lower limbs
- Toenail trimming and filing
- Nail debridement for thick uncomfortable nails
- Ingrown toenail treatment
- Treatment of corns and calluses
- Moisturizing foot massage
- Foot health teaching
- Diabetic foot care and health teaching
- Footwear assessment & fitting
- Compression assessment & fitting
- Custom orthotics
- Wound care
- Care products
